It's one of the best game's on steam and the graphichs are so cool. Fun game with some and few jumpscares. I think it should win for best enviorment because the graphics look good. A dissapointment compared to the trilogy of HeroRise tbh. its for the memes and thats all. Graphical style and quality are very good, sadly can't say much more as the control system is horrid. 360 game pad sometimes works sometimes doesn't. Though not a \u00a330 AAA title i still expect games to atleast be polished enough to work as advertised. Sorry can't reccomend at the moment. save your money until it's either patched and fixed or buy a different title.
